Joseph Hutter, Allen County Indiana Building Commissioner

Plan requirements for New Commercial Construction and Remodeling of and existing Commercial Building

Allen County requires that one set of digital plans be submitted at the time of permit application. Each file must be broken down to no more than 50mb per file.

One full set of plans no less than 30x42 in size will be on site at all times during construction.

Digital plans and printed plans must be stamped by the architect and be the same set of plans that was submitted to the State for review (if required).
