

Allen County Storm Drain Marking Application

Do you, your neighborhood or subdivision association, school or civic group want to be involved in cleaning up your community's stormwater? Become part of the Allen County Surveyor's Office Storm Drain Marking Program. By affixing a special "No Dumping, Drains to Stream" emblem on storm drains, residents and passers-by become aware that what flows down those drains is not treated before reaching the streams and rivers of Allen County. Dumping pollutants down the storm drains can harm the waterways of our community where we fish, swim, and obtain our drinking water. The Allen County Surveyor's Office will supply all materials, a map of where the storm drains are located within your community or subdivision, and instructions necessary to mark these

drains. Sign up today to become part of a program that will serve for many years as an important reminder to keep garbage, debris, chemicals, and hazardous waste out of the storm sewer system.

Please complete the following information to sign up for the storm drain marking program. Additionally, the Storm Drain Marking Liability Waiver form must be signed in order to participate.
